I understand that if I compete at the collegiate level in *any* sport, this award is reportable to my college/university athletics department. Depending on the amount of money each college/university awards for athletics, it is possible that I will be asked by my college/university to return this award to PSC in the event my college/university has maxed out their eligible aid awards, according to NCAA guidelines. In the event this happens, I will be given the opportunity to have PSC donate the funds to a charity of my choice.
