Key Management Solution (KMS)

INTEGRA METERING

Protects and keeps data for optimal security

In an increasingly hyper-connected environment, the Internet of Things (IoT) and its multiple communication systems have developed exponentially. In order to comply with data protection standards as effectively as possible, the data transmitted must be secured by modern means and encrypted.

Our Key Management Solution (KMS) offers the following features:

Key exchange

Key exchange management via a secure Web Server application

Quick access

Access and management of all equipment parks and deliveries

Data management

Easy extraction of data for optimum transfer to data processing management systems

Sustainable solution

Long-term solution based on a flexible, scalable architecture

Description of features:

- Access to INTEGRA Metering AG's KMS platform via web browser and secured by login
- Easy to use Cloud platform with secure HTTPS access via SSL certificates and individual user access with account login and password

kms.integra-metering.com/

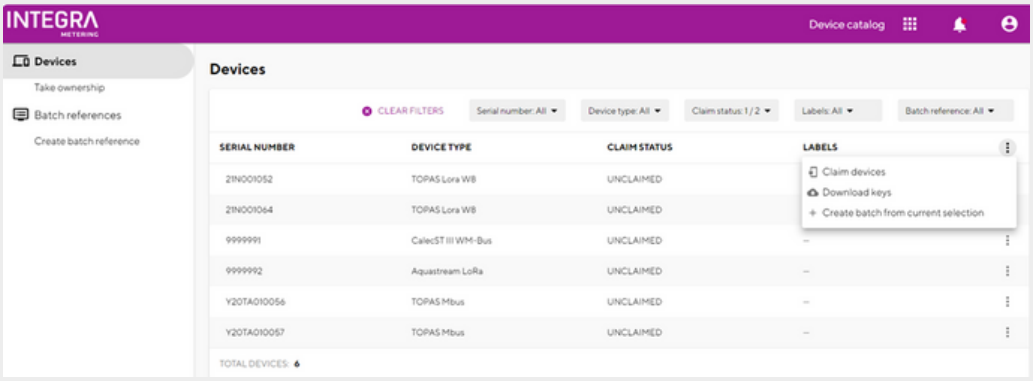

Quick access to all deliveries and devices:

- List of meters/modules supplied by INTEGRA Metering AG
- Status information display (filtering, selection)

Claiming the safety information:

First, accept the keys in your account. Check the "Claim Status" to see the state.

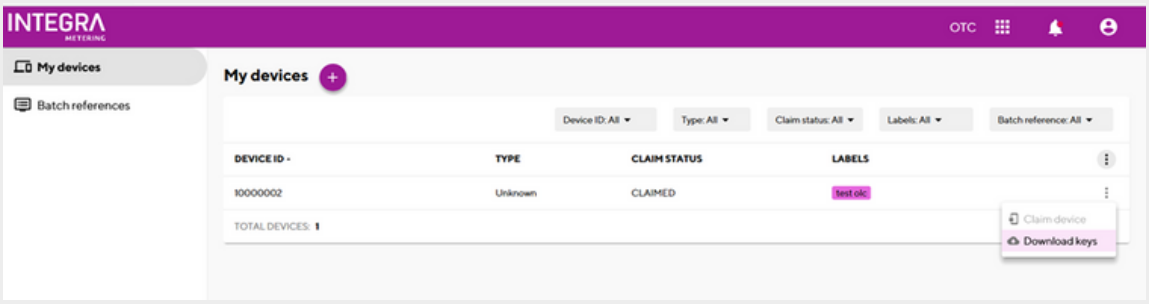

1. Select one or all of the devices
2. Click on "Claim devices"
3. Accept the operation in the new popup message
4. The "Claim Status" is now marked as "CLAIMED".

Download safety information easily :

1. Select one or all of the devices
2. Click on "Download keys"
3. The data is now saved in your system

ⓘ Only claimed devices can be downloaded
